Description

A very original Swedish Longcase clock from the Mora district. It has a waisted case, with a balloon hood and top cresting. The door has a circular lenticle to view the pendulum. The case retains its original folk art decoration, dated 1834, the movement and dial are also original as are its unusual shaped weights. The dial is signed A.A.L. for And. Larson. It has a near week duration movement that sounds the hours on two melodic bells.
