

Large solid Oak Fusee Cased Dial Clock

Sold

REF: 185429

Depth: 18 cm (7.1")

Diameter: 45 cm (17.7")

Description

A large late 19th Century English fusee dial clock. It has a traditional pegged case with side and bottom inspection doors, a substantial turned oak bezel with a very thick bevel edge glass and a heavy cast brass bezel that has a silvered inside sight ring. The 14 inch diameter dial is signed by the maker, Skinner of London. It has a heavily engineered 8 day fusee movement.
