Sold

REF: 375514

Height: 49 cm (19.3")

Width: 23 cm (9.1")

Depth: 23 cm (9.1")

Diameter: 23 cm (9.1")

Description

A 9 inch German Terrestrial globe dating to 1868. The globe stands on a turned beechwood base and has a brass half meridian and shows ocean currents and shipping routes and latest discoveries at the Poles. It was made by Ludwig Heyman of Leipzig, a well known Globe maker who worked from 1860-1903. This globe can be accurately dated as it shows The Austrian-Hungarian Empire, but not the Suez Canal.
