Description

A mid 19th Century Biedermeier Vienna regulator clock. The traditional six glass mahogany case has an architectural top, and a slender mahogany frame with boxwood edging. The oak back is veneered with mahogany. The two piece enamel dial has Roman numerals and counterpoised regulator hands. It has an 8 day timepiece movement, which has a true dead beat escapement and maintaining power and is numbered on the movement and dial backplate. The brass cased weight has an engraved pulley and the brass bob pendulum has a polished steel rod.
